Summary of Qualifications

Over 30 years of experience managing safety and health for various projects. Successfully implemented numerous nationally and internationally accepted safety management systems involving multiple training programs, inspection tools and accident investigation methods. Proven ability to problem-solve issues in a “hands-on” and personable manner.

One of the only safety professionals internationally who holds the Canadian Registered Safety Professionals designation (CRSP) from the board of Canadian Registered Safety Professionals, the Certified Health and Safety Consultant designation (CHSC) and the international Certified Safety Professionals (CSP) designation with the Board of Certified Safety Professionals. I am also a Certified Safety and Health Professional (CSHP) in the State of Hawaii and can save your business money through rebates on your Worker’s Compensation premium. I have assisted numerous companies successfully pass Workwell, COR and other Government compliance audits.

Relevant Experience

August 1999 to Present

Raising the Standard Consulting /USA Inc. – Hawaii / Canada

Founder and CEO

I manage all aspects of leadership, sales, recruitment, marketing, program development, training, strategic planning and quality control for this vibrant Health & Safety Consulting Firm. The firm has a core of seasoned professionals and associate consultants across Canada and the United States. I have been involved in projects with a wide range of industries including, mining, healthcare, manufacturing, construction, pharmaceutical, and Federal, to name a few. Construction specific activities provided for a wide range of clients such as Nordic PCL, Nan Inc., Watts Constructors, Remington Home Builders and Trillium Masonry to international projects for Lafarge North America (highway and street construction) and Lilja Corporation (furnace installation and maintenance) included:

- Develop and deliver government approved certification training for safety representatives.
- Provide accident investigation and regulatory citation assistance.
- Provide on-site, full and part-time Site Safety and Health Officers (SSHO) on Federal, State, Provincial and private projects.
- Responsible for the development and implementation of new services for clients, to include training programs, maturing safety programs, assessments, trending, ethics and gap analysis.
- Anticipate, identify and evaluate hazardous conditions and practices. Develop hazard control designs, methods, procedures and programs. Implement, administer and advise others on hazard controls and hazard control programs.
- Measure, audit and evaluate the effectiveness of hazard controls and hazard control programs.
- Provide training and multi-site safety management coverage.
- Contracts consisted of all phases of construction and involved trenching, crane safety, rigging, steel erection, electrical, mechanical, lockout, scaffold, fall protection, confined space, etc.

Walsh Construction – Honolulu, Hawaii

Alternate Site Safety and Health Officer

I was the SSHO for the Ford Island Project, which The [U.S. Navy](#) has begun. It is an \$84 million construction project that will make Ford Island the center of Pearl Harbor Naval Base operations. The infrastructure phase will

employ about 250 construction workers and could provide a peak local work force of up to 400. It also will restore the island's time-worn infrastructure to its former glory with the added benefit of modern technology. The work involves installing new electrical and telecommunications systems as well as major improvements to the sewer system and roadways

December 2011

KIUC - Kapaia Power Station – Honolulu, Hawaii

Safety Consultant

Supervised and trained the workers of IST's Once Through Steam Generator (OTSG), which is highly efficient in recovering our gas turbine's exhaust heat in the form of super-heated steam. The steam is injected back into the gas turbine in two ways; first, adding mass flow to the combustor which increases MW output without burning additional fuel, and secondly, into the fuel nozzles which greatly reduces NOx emissions and demand on the plant's SCR system.

July 2011

Glads Tree Trimming—Honolulu, Hawaii

Alternate Site Safety and Health Officer

Provided the On-Site SSHO for the I-225 Rail Line which is a Design-Build project to construct 10.5 miles of Light Rail corridor. 5 miles of the Light Rail will run along I-225 and the remainder will run along local streets. There are 7 bridges, 7 grade crossings, and 8 stations in the 9 mile stretch from Iliff to the tie-in point of Peoria Station. Rail valued at \$1,000,000.

June 2011 to December 2011

General Trades & Services Inc. ("GTS") – Honolulu, Hawaii

Alternate Safety Manager and Occasional Site Safety and Health Officer (SSHO)

KAENA POINT Water Tank Repair (WTR) and Drainage Repair (DR) involving performing the drainage improvements and the repair of two above ground welded steel water tanks. Duties provided included:

- a. Evaluate client's existing safety plan and edit/augment said plan as Consultant deems advisable.
- b. Provide training with respect to safety issues to Client's employees as Consultant deems advisable.
- c. Provide site specific written plans as Consultant deems advisable.
- d. Perform daily site visits and provide recommendations for hazard abatement. All recommendations are provided in writing to Client's site supervisor and Client's corporate designee.
- e. Participate, if requested and upon reasonable notice, in inspections and informal conferences conducted by governing entities and/or insurers, as well as any other meetings or conferences involving safety and health, as needed.

Su-Mo Builders Inc. – Honolulu, Hawaii

Safety Consultant

Our company provided training for workers who are exposed to live part of 50 volts or more, worker is provided with appropriate shock and arc flash hazard protective equipment. Training informs worker of specific distances and levels of personal protective equipment. Taught the use of lockout/tagout (LOTO) for electrical work, must be able to perform tasks in or near energized electrical equipment; protected against electrical parts (shock hazard) and from potential intense heat and extreme pressure (arc flash/blast).

April 2011

ITT Systems Corp – Honolulu, Hawaii

Safety Consultant

Provided Arc Flash/Lockout/Tagout Training for this company. ITT partners with its customers to deliver enduring solutions to the key industries that underpin our modern way of life. Founded in 1920, ITT is headquartered in White Plains, N.Y., with employees in more than 35 countries and sales in a total of approximately 125 countries. The company generated 2012 revenues of \$2.2 billion. ITT is a diversified leading manufacturer of highly engineered critical components and customized technology solutions for the energy, transportation and industrial markets.

October 2010

Aramark – Toronto, Ontario

Safety Consultant

I have provided all different types of safety services, the majority of them have been safety audits and conducting safety training programs.

August 2010 to January 2014

Honolulu Builders – All Islands, Hawaii

Safety Manager

Provide all safety and health services for all projects on all islands from claims management, site inspections, safety incentive program implementation, development and providing bidding documents to development of Site Specific Safety Plans/Activity Hazard Analysis (AHA) and required training modules etc.

June 2009 to July 2009

Lawson & Associates (0125 APP – B6043 Project) – Honolulu, Hawaii

Site Safety and Health Officer (SSHO)

As a safety officer I was responsible for the following duties:

- ☐ Conduct daily safety and health inspections and maintain a written deficiency tracking log for an \$800, 000 military warehouse modification project.
- ☐ Conduct mishap investigations and complete required reports. Maintain the OSHA Form 300 and daily production reports for prime and sub-contractors.
- ☐ Attend the pre-construction conference, pre-work meetings including preparatory inspection meetings, and periodic in-progress meetings.
- ☐ Implement and enforce APPS and AHAs.

August 2008 to May 2009

Risk Solution Partners – Honolulu, Hawaii

Risk Control Consultant / (SSHO)

As a Risk Control Consultant I am responsible for the following duties:

- Maintain and enforce clients' Voluntary Protection Program (VPP) Star Status health and safety program for Honolulu Builders on their Kunia expansion project for Monsanto. Project Safety Person of a 20+ million dollar warehouse and farm process equipment project. The contract consisted of all phases of construction and included trenching, crane safety, rigging, steel erection, electrical, mechanical, lockout, scaffold, fall protection, confined space, etc. The project had as many as 60 tradesmen on site at any given time. I generated a positive effect on every single worker on site allowing them to be more safety conscious;
- Gather, assess, and organize information on clients' health and safety problems and issues;
- Conduct on-site observation to ascertain unit functions, work performed, and methods, equipment, and personnel used;
- Analyze data gathered and develop solutions or alternative methods of proceeding;
- Identify accident causes and help clients determine how such accidents might be prevented in the future;
- Evaluate workplace environments, equipment, and practices, in order to recommend compliance with safety standards and government regulations;
- Conduct safety training sessions and education programs to management, and demonstrate the use of safety equipment;
- Confer with clients concerned to ensure successful functioning of newly implemented systems or procedures;
- Recommend measures to help protect client's personnel from potentially hazardous work methods, processes, or materials;
- Recommend and assist the clients in the implementation of health & safety solutions in order to help them reduce their expenses related to workplace injuries and illness and thus enhance profitability;

June 2006-March 2007

Technicore Construction – Barrie, Ontario

Safety Consultant

This company does core drilling and for them I provided safety program development, training and multi-site safety management.

July 2005

Primont Homes –Toronto, Ontario

Safety Consultant

Primont Homes are builders of many types of homes. For them I provided safety program development, training and multi-site safety management.

January2005-May2009

Kings Cross Construction – Bolton, Ontario

Safety Consultant

Kings Cross Construction provides sewer and water main services to construction sites. I developed their safety program, provided training and on-site safety management.

April 2004-June 2004

Lilja Corporation – Brampton, Ontario

Safety Consultant

Lilja Corp. provides industrial and furnace constructions. While on site I provided safety training development, training and multi-site safety management.

March 2004

Derb Tile Construction Inc. – Toronto, Ontario

Safety Consultant

Derb Tile is a residential and commercial building construction company. For this company I provided safety program development.

January 2003

Ontario Propane Association –Toronto, Ontario

Safety Consultant

Provided this company with a propane handling safety course.

January 2003

Remington Homes – Toronto, Ontario

Safety Consultant

Remington Homes are builders of many types of homes. For them I provided safety program development, training and multi-site safety management.

December 2002-January 2003

Sunshine Masonry – Toronto, Ontario

Safety Consultant

I conducted general safety training for Sunshine Masonry.

November 2002 and February 2006

Lafarge North America – Toronto, Ontario

Safety Consultant

In 2002 I researched the Canadian regulations for Silica for this large construction company. In 2006 I provided Certification Training for their Safety Representatives.

October 2002

Royal Town Homes – Toronto, Ontario

Safety Consultant

For this home builder I provided safety program development, training and multi-site safety management.

September 2002

Midas Trim Carpentry –Toronto, Ontario

Safety Consultant

I provided safety program development and training for this carpentry company.

Sept.2002-June2003

Thornton Industrial Installers– Toronto, Ontario

Safety Consultant

For this installation company I provided safety program development, training and multi-site safety management.

May 2002

Trillium Masonry – Toronto, Ontario

Safety Consultant

I provided safety program development and training for this masonry company.

2001-2006**Kaneff Homes –Mississauga, Ontario***Safety Consultant*

Kaneff Homes builds all types of homes from condominiums to executive homes. Over the years of servicing Kaneff Homes, I provided safety program development, developed and conducted training and managed safety.

March 2001-July 2001**Bird Construction – Toronto, Ontario***Safety Consultant*

Bird Construction is a builder of commercial high rises. I was responsible for the inspection and safety management of multiple sights.

November 1998 to August 1999**Education Safety Association of Ontario – Toronto, Ontario***Field Consultant – South Central*

I was responsible for servicing the Museums, Universities, Colleges, Libraries, Schools and Art Galleries in the Greater Toronto Area. I assisted the education sector in reducing workplace injuries and illnesses through activities such as Certification training, audits, health and safety program development and quantitative measurements of air quality, noise and vibration.

June 1998 to November 1998:**Health Care Health and Safety Association – Toronto, Ontario***Project Team Leader*

Reporting to the Executive Director/CEO, I was responsible for organizing and managing my division and establishing procedures to meet the Health Care Health and Safety Association's objectives. I coordinate and monitor the delivery of Health Care Health and Safety training programs and consulting services of my division. I was a liaison with senior managers in the health care sector. I acted as a team leader by directing and advising Consultants and Associate Consultants on a project-by-project basis to ensure they meet the needs of the Health Care Health and Safety Association's clients. I also performed consulting duties as required to utilize my area of experience within any one of the divisions of the Association. I assisted the Executive Director/CEO in the hiring, training and managing of Consultants and Associate Consultants. I was responsible for meeting with trade and professional associations and other groups to discuss the health and safety needs of my division and to promote the services offered by the Health Care Health and Safety Association. I also assisted the Executive Director/CEO and Board of Directors in strategic and operational planning. My responsibilities spanned throughout the province, and included all long term care facilities.

July 1995-June 1998:**Boart Longyear Inc. - Mississauga, Ontario***Safety & Personnel Administrator (Mississauga & Sudbury facilities)*

I was responsible for assisting in the investigation of all work related incidences, including lost-time injuries, medical aids, first-aids, near-misses and accidents involving property damage. I conducted regular inspections of the steel manufacturing plants, all geo-technical and a number of mining projects. I also administered and monitored all Workplace Safety and Insurance Board claims, acted as the company's representative for appeals and ensured compliance of the Occupational Health & Safety Act and all environmental regulations. I conducted and/or analyzed all industrial hygiene monitoring. I was responsible for the development and implementation of all environmental, health & safety programs. I successfully conducted training needs analysis and provided training programs for all plant and management staff. I developed and administered all Human Resource procedures and programs and conducted investigations regarding all matters related to Human Resources.

May 1993-July 1995:

Xerox Canada Inc. - Oakville, Ontario

Environment, Health & Safety Technical Advisor

I successfully developed and implemented policies and procedures regarding numerous factors of the environment, health & safety program using the International Safety Rating System. Some of these developments included: evacuation procedures, fire/property protection procedures, lock-out procedures, safe job procedures, plant/management safety training analysis and scheduling, Joint Health & Safety Committee training and reorganization and safe work/fire permits and policies. I also analyzed work incidents and their causes, recommended corrective actions and followed these through to completion. Individually and as advisor of the Joint Health & Safety Committee, I identified unsafe working conditions and prepared technical reports for unsafe equipment and processes. I updated and organized all Material Safety Data Sheets and completed general and specific workplace WHMIS training. I was the official company representative in all communications with Government agencies regarding environment, health & safety matters.

March 1992-May 1993

Xerox Canada Inc. - Oakville, Ontario

Safety Specialist

Consultant work involving the enforcement and development of environment, health and safety standards during the construction of the second phase of Line #1. I conducted inspections, incident investigations and reported on substandard conditions. I was also the liaison for all permitting and approvals between Xerox and various agencies during the construction project. I conducted hazard analysis operability studies (HAZOPS) and made recommendations based on my findings.

June 1991-February 1992

Fluor Daniel Canada Inc. (Ford Paint Facility) - Oakville, Ontario

Safety Specialist

Consultant work involving the maintenance and enforcement of existing, all-encompassing construction safety programs and procedures at the 825,000 square foot, grass roots paint facility construction site. Issues regarding all process equipment including paintspray booths and associated robotics, ovens and conveyor systems, water recirculation systems, ventilation systems, fire protection and security systems, etc., were supervised. I chaired multi-union Joint Health & Safety Committee meetings, conducted site inspections, confined space analysis as well as various other construction safety related tasks.

June 1990-June 1991:

Shopsy's Foods - Weston, Ontario Div.

Of Thomas J. Lipton Inc.

Safety & Loss Control Coordinator

Implementation of a unique two-stage fire evacuation plan. I directed and controlled all fire protection activities, supervised site security operations and coordinated activities of contract security staff. I designed a safety training program to promote, motivate and facilitate safe work practices by all office and plant employees.

Brampton HI, 96813

Dear Stanford Brown,

Congratulations! We're pleased to have you as a MEDIC First Aid-authorized Instructor. Your Instructor authorization level permits you to train and certify students in the following MEDIC First Aid® programs:

PediatricPlus CPR, AED and First Aid for Children, Infants and Adults; CarePlus CPR and AED; BasicPlus CPR, AED and First Aid for Adults; Child/Infant CPR and AED Supplement; Bloodborne Pathogens; Oxygen First Aid for Emergencies

Your Instructor card is attached to this letter – please ensure your Training Center has a copy and keep this one for your records. You must remain affiliated with an active Training Center in order to maintain your active status; your Training Center is responsible for managing your class rosters and maintaining your certification materials. As part of your affiliation with MEDIC First Aid you will have access to the online Instructor Portal which contains the following tools:

- Access to electronic classroom curriculum documents (e.g. rosters, evaluations)
- Enrichment courses for professional development
- Access to the online store (Note: only Training Centers may purchase certification material)
- Regulatory information
- Access to an electronic copy of your Instructor card for easy digital recordkeeping
- Ability to update your contact information online

To secure access to the Instructor Portal please visit www.hsi.com and click Sign in. If you are a new Instructor, your Instructor number is your login ID and your default password is 54321.

Login today as this is a temporary password and it will expire in ten days. If you are an existing Instructor who has renewed or updated recently, you may continue using your previous login information. For any assistance using your login information, please contact us at 877 440 6049.

Welcome to MEDIC First Aid, a member of the Health & Safety Institute family of brands. We're glad to have you on board!

Health & Safety Institute—We Make Learning to Save Lives Easy.®

By accepting this Instructor authorization card, you agree to comply with the terms and conditions of the Instructor or Instructor Trainer Authorization as described in the Training Center Administrative Manual, Standards and Guidelines For Quality Assurance. If you do not agree to comply with these terms and conditions, please promptly notify your Training Center Director or HSI.
