*Re: Dr. Patrick J. Regan, D.O.*

To Whom it May Concern:

I write to recommend Dr. Regan as an expert in matters involving medical licensing, credentialing, discipline, and related issues.

I have practiced law for almost forty years. I have used many experts on many different topics. I recently had a case involving medical licensing, discipline, and related issues. Dr. Regan helped me to understand the various issues and the significance of certain developments with respect to my client and his case. Dr. Regan also formulated and shared opinions regarding the case which I used to successfully resolve the case on favorable terms.

In short, Dr. Regan was excellent to work with, responsive, knowledgeable, and informed. His expert opinions aided me in representing my client. I will not hesitate to use him again in any case involving such issues.

Sincerely,

Robert K. Baldwin
