

DANIEL J. FRICK, MD

Fishers, Indiana 46038

dfrick@alumni.duke.edu • (317) 572-8536

I am a Duke-educated, board-certified Family Medicine physician with 9 years of active clinical practice. I serve as a Regional Medical Director, overseeing clinical quality and provider standards. My clinical background includes chronic disease management and primary care in rural and underserved settings. I have served as a clinical preceptor for psychiatry residents from Community Hospital, providing supervised training in the primary care setting.
