1507 Langhorne Rd

Lynchburg, VA 24503

***Fellowship trained epilepsy neurologist in active clinical practice. Triple board-certified (neurology, clinical neurophysiology and epilepsy). University of Virginia educated and trained. University of Lynchburg and Liberty University College of Osteopathic Medicine faculty. Experienced public speaker.***

---

#### PROFESSIONAL EXPERIENCE

---

**Centra Health, Lynchburg, VA**

2020 – 2023

Medical Director of Comprehensive Epilepsy Center

- Opened the 2-bed Epilepsy Monitoring Unit at Lynchburg General Hospital.
- Created Centra's first Epilepsy Monitoring Unit and Spells Work-Up Assessment Team (including nursing, technologists, behavioral health, social-work, and case management).
- Expanded access to continuous EEG throughout the healthcare system and implemented novel technologies such as Ceribell to expand after-hours access for critically ill patients in status epilepticus.
- Interpreted inpatient, outpatient, and ambulatory electroencephalograms (EEG). Treated adults with drug-resistant epilepsy, including the use of Vagus Nerve Stimulation (VNS) for the treatment of seizures.
- Organized specialty clinics for specific epilepsy co-morbidities, including the management of pregnant women with epilepsy and the diagnosis of psychogenic non-epileptic seizures.
- Performed Botox and trigger point injections for chronic migraine.
- Led multidisciplinary, institutional project to administer infusions in clinic for chronic migraine.
- Created the scribe program for outpatient neurology.

#### COMMITTEE AND LEADERSHIP EXPERIENCE

---

|   |             |
|---|-------------|
| <b>Centra Medical Group</b><br><u>Professional Practice Committee, Member</u> | 2022 – 2023 |
|---|-------------|

Represented the CMG Board in matters related to qualification for initial and on-going employment of CMG providers and provided oversight and direction in matters related to provider adherence to and compliance with CMG and Centra values, the provider Compact, quality and safety policies, and patient engagement. The Professional Practice Committee assisted service line and other leaders to address and manage provider issues related to employment qualifications and/or obligations as outlined in the

providers' employment agreements, as well as non-compliance with Centra and CMG policies and procedures.

#### Neuroscience Service Line Executive Council Member

Developed strategy for the service line, defined performance benchmarks, recruited candidates for neurosurgery, neurology and neurovascular multidisciplinary teams, participated in governance with regards to physician performance, oversaw quality projects and implementation of telehealth and other access initiatives.

#### Centra Telehealth Taskforce Standing Member

Participated in a telehealth task force to help the organization respond to a rapidly-evolving telehealth environment. Considered how topics in telehealth – and communication in general – were incorporated into Centra's long-term strategy.
