RESEARCH AND PUBLICATIONS

Co-investigator Prodisc C randomized controlled clinical trial. Cervical Fusion vs. Cervical Arthroplasty. Denver, CO

Mechanical Analysis of the Cross-Linking Effect of a “W” Contoured Rod for Posterior Instrumentation of the Spine. A modified synthetic model and apparatus were designed to assess the torsional stability of a single level construct. Pedicle screw Orientation was also assessed. Co-authored with Dr. Peter Wing Vancouver General Hospital. Internal Publication of the Department of Orthopaedics UBC. Presented at the Canadian Orthopaedic Association annual meeting in June 1998. Presented at Current Controversies in Spine meeting in Miami Nov 1999.

Prospective Trial Comparing Functional Outcome and Perioperative Complications of Humeral Shaft Fractures Treated with Either Closed Intramedullary Nail Fixation or Open Reduction Internal Fixation. An Analysis of 44 Patients entered in a multi-centered trial. Internal Publication in the Department of Orthopaedics UBC. Co-authored with Dr. Bob McCormack Royal Columbian Hospital. Accepted for poster presentation at the Canadian Orthopaedic Association annual meeting in June 1998.

Retrospective Review of the Outcome of Treatment Methods for Dislocated Total Hip Arthroplasty. Results of closed reduction, “Boots and Bars,” and surgical stabilization. A proposed protocol outlining indications for surgery was also designed. Co-authored with Dr. Clive Duncan (Chairman of the Dept. Of Orthopaedics). Poster Presentation at the Annual Canadian Orthopaedic Resident’s Association Meeting. May 1996

VOLUNTEER AND OTHER EMPLOYMENT HISTORY

Ring side Doctor for amateur boxing colorado
