

JENNIFER DEVINCENT RN, BSN, RNC-NIC

(781)799-4662 / 54 Midland Drive, Waltham, MA 02451 jenniferdevincet@legalnursesolutions.net

I am an accomplished healthcare professional and nurse clinician with over two decades of dedicated service at Mass General Brigham, a nationally recognized leader in obstetrical care. I am certified in Neonatal Intensive Care Nursing (RNC-NIC) and have a strong foundation in neonatal resuscitation. In addition, I am trained in physiologic birth practices and advanced fetal monitoring, and I serve as a certified NRP (Neonatal Resuscitation Program) instructor, passionately educating fellow healthcare providers on best practices in neonatal resuscitation.

Throughout my extensive experience, I have adeptly managed obstetrical and neonatal emergencies, ensuring comprehensive care for both mothers and newborns throughout the labor and delivery journey. My key skills include effective communication, critical thinking, and leadership in high-pressure situations. I am dedicated to continuous learning and professional development, always striving to enhance my skills for the benefit of my patients and colleagues.

AREAS OF EXPERTISE

Obstetrical Care | Fetal Monitoring | Obstetrical Emergencies | Newborn Resuscitation | Antenatal/Postnatal Care
Neonatal Intensive Care | Standards of Care | Evidenced Based Practice | Quality Improvement | Clinical Assessment
Interdisciplinary Collaboration and Communication | Patient and Family Education | Compassion | Research & Analysis

KEY PROPOSITION

- Ability to assess and deliver care in both Neonatal and Obstetrical emergencies.
- Conducted extensive research to stay abreast of current medical practices and advancements and proficiency in Standards of Care.
- Collaborate extensively with interdisciplinary teams, with effective communication, to deliver top notch Obstetrical care.

CAREER HIGHLIGHTS

Registered Nurse- Labor and Delivery | Mass General Brigham.

December 2021 - Present

Conducted comprehensive assessments and provided exceptional care to patients throughout the pre-, intra, and post-partum periods. Utilized advanced fetal monitoring equipment to deliver high-quality care and support to patients.

Key Initiatives:

- Collaborated closely with physicians in regard to fetal monitoring strips during delivery and surgical procedures.
- Maintained meticulous records and effectively communicated patient conditions through electronic medical records.
- Delivered comprehensive patient and family education on labor, pain management, delivery, and newborn care.

Registered Nurse - Neonatal Intensive Care Unit | Mass General Brigham

September 2003 – December 2021

Collaborated with healthcare professionals from diverse disciplines to develop, implement, and oversee individualized care plans aimed at enhancing patient health and facilitating recovery of critically ill neonates.

Key Initiatives:

- Assessed, evaluated, and provided care for neonates in a level III 66-bed Neonatal Intensive Care Unit.
- Administered medications and fluids and monitored vital signs on critically ill newborns.
- Effectively communicated with family members and loved ones to deliver comprehensive information regarding patient care, treatments, and medical options.
