Past

2014-2017 Development of a Novel Method for the Short-Term Prediction of Suicidal Behavior.
AFSP/RFA-0-020-13

Co-Investigator (PI:Matthew Nock)

The goal of this study was to develop a multi-modal method of accurately predicting short-term and imminent risk of suicide attempts by combining four innovative approaches into one brief and clinically feasible assessment tool administered to patients with acute psychiatric presentations to the emergency department.

2018-2022 Intensive Longitudinal Study of Suicidal Behaviors and Related Health Outcomes.

NIH/U01 MH116928

Co-Investigator (PI: Matthew Nock)

The primary aim of this study is to identify digital phenotypes of patients at increased risk of having suicidal ideation or attempting suicide, using data collected subjectively and objectively via smartphone surveys and wearable biosensors. The study will also aim to map dynamic trajectories of suicidal ideation and behavior over time.

Current

2023- Effectiveness and Implementation of a Clinician Decision Support System to Prevent Suicidal Behaviors

NIMH/P50 MH129699-01-A1

Co-Investigator (PIs: Matthew Nock and Jordan Smoller)

The primary goal of this project is to evaluate a comprehensive, practice-ready and deployment-focused strategy for improving the prediction and prevention of suicide attempts among a sample of 4,000 patients presenting to an ED with a psychiatric concern. This study is a signature project of the Center for Suicide Research and Prevention (CSRP) P50 NIMH-sponsored grant.

Report of Clinical Activities and Innovations

Current Licensure and Certification:

- 1987 Massachusetts License Registration
1990 Board Certification, American Board of Psychiatry and Neurology
1998 Added Qualification in Addiction Psychiatry, American Board of Psychiatry and Neurology; Recertification 2008

Practice Activities:

- 1989- Private Practice in adult psychiatry, psychotherapy, and psychopharmacology, currently up to 10 hours/week average
- 1990-1992 Staff Psychiatrist, Ambulatory Community Service, The Cambridge Hospital, Cambridge, MA, 12 hours/week
- 1990-1994 Staff Psychiatrist, East Cambridge Neighborhood Health Center and Portuguese Mental Health Program, The Cambridge Hospital, Cambridge, MA, 4 hours/week
- 1990-1997 Staff Psychiatrist, Monday Team Leader, General Psychiatry Outpatient Department, The Cambridge Hospital, Cambridge, MA, administrative position with up to 15 hours/week of direct clinical care
- 1997-2013 Director of Psychiatric Emergency Services, The Cambridge Hospital, Cambridge, MA, administrative position with up to 16 hours/week of direct clinical care
- 2007- Expert reviewer to CRICO/Risk Management Foundation, Cambridge, MA
2013-2024 Director, Acute Psychiatric Service, Massachusetts General Hospital, administrative position with up to 10 hours/week of direct clinical care

Clinical Innovations

- 2016 MGH Care of the Suicidal Patient. I participated in a multi-disciplinary work group to develop and implement guidelines for the safe and comprehensive care of hospital patients at risk for suicide.
- 2018 MGH ED Safety Guidelines. I participated in a multi-disciplinary work group to design and implement guidelines to maintain the safety of at-risk patients during their ED encounter, improving the quality of care for a high risk patient population.
2020. ED Suicide Screening and Care of the Suicidal Patient. I participated in a multi-disciplinary work group to design and implement standardized suicide screening for all patients presenting to the ED with behavioral health complaints, as well as implementing protocols for the management of all at-risk patients identified.
- 2020 ED Agitation Guidelines. I participated in a multi-disciplinary work group to create guidelines for selecting appropriate pharmacologic interventions to treat varying levels of agitation in pediatric, adult and geriatric ED patients. This guideline is a valuable resource for providers managing agitation and preventing violence in the ED setting.
