PROFESSIONAL SUMMARY

Dr. Roger Kasendorf is a recognized, board-certified Doctor of Osteopathic Medicine with a subspecialty in pain medicine. He consults in legal proceedings in diverse areas related to pain medicine, physical medicine, physical rehabilitation, musculoskeletal disorders, acute/chronic pain management, spinal conditions, interventional pain management, personal injury, medical malpractice, disability, impairment, causation, standards of care, and life care planning. He has also conducted numerous IME's and QME's for workers' compensation claims and insurers.

Dr. Kasendorf provides unbiased expert opinions, insights, independent medical evaluations, assessments, case merit reviews, expert reports, depositions, and trial testimony for plaintiff and defendant in civil, federal criminal, and administrative legal proceedings. He bases his opinions on clinical/professional experience, science, analytics, research, academic expertise, and a deep understanding of pain medicine, osteopathic medicine, physical medicine, and physical rehabilitation related litigation.

Dr. Kasendorf utilizes his diverse background as an osteopathic physician, independent medical examiner, medical records reviewer, educator, consultant, and expert witness to clearly communicate complex medical concepts and technical evidence in a manner that can be readily understood by attorneys, juries, judges, and insurers. As a multi-subject matter expert, he is also highly proficient in evaluating the accuracy, appropriateness, and reliability of the opinions of other medical experts.

Dr. Kasendorf has a proven track record that aligns with evidence-based medical principles and accepted standards of care. His opinions meet the highest standards of objectivity, accuracy, and professional integrity. He is committed to remaining at the forefront of advancements in healthcare, pain medicine, osteopathic medicine, physical medicine and rehabilitation positioning him as a trusted authority and resource for attorneys navigating complex medicolegal matters.

PROFESSIONAL STRENGTHS

- Q Strong Science & Analytical Skills as an Expert**

Dr. Kasendorf applies scientific methodology and analytical reasoning to evaluate medical evidence, causation, and damages in physical medicine and osteopathic related litigation.

For attorneys this provides defensible, evidence-based opinions which strengthen the credibility of expert reports, depositions, testimony, cross-examination, and supports admissibility standards. Attorneys gain a clear, logically structured analysis that can withstand scrutiny while helping opposing attorneys, judges, and juries understand complex physical medicine and osteopathic issues.
- 🔍 Evidence-Based Medical Opinions & Reports**

Dr. Kasendorf provides unbiased, evidence-based medical opinions and reports that assist legal professionals in strengthening case theory through objective medical analysis. His work focuses on evaluating complex medical issues, including causation, impairment, and damages.

For attorneys, evidence based opinions assist in understanding complex medical issues, supporting damages assessment, disability severity, and improve case strategy.
- 📅 Life Care Planning & Future Medical Needs Assessments**

Dr. Kasendorf applies clinical expertise to evaluate long-term medical needs, future treatment requirements, and anticipated care for individuals with complex, or catastrophic injuries. This supports attorneys in understanding projected healthcare needs and long-term case valuation.
- ★ Functional Assessment & Impairment Evaluation**

Dr. Kasendorf is highly proficient in assessing functional capacity limitations and impairment resulting from injury or medical conditions. For attorneys, these evaluations assist in understanding the impact of injury and ensure accurate assessment of limitations in litigation.
