## Summary

I'm Dr. Glenn Birnbaum, a residency-trained, board-certified Emergency Medicine Specialist and a fellow of the American College of Emergency Physicians. In addition to over 30 years' experience in clinical practice as an emergency physician, I have extensive additional experience as core faculty for an emergency medicine residency training program, leadership of several high-volume, high-acuity emergency departments, and leadership of a large regional Emergency Physician group.

I specialize in Emergency Room Failure to Diagnose cases and have assisted attorneys in 50-100 personal injury and medical malpractice cases, including frequent trial and deposition testimony in federal court and state courts nationwide.

As an emergency medicine expert, I diligently review the facts of the matter at hand, identify all the relevant issues, and provide an extensive analysis of the matter. Hallmarks of my work as an expert include: clear, consistent, well-supported opinions, explanation of complex medical concepts in a way attorneys and jurors understand, a sincere and professional demeanor, attention to detail, and easy accessibility (I return messages the same or next day).

Typical cases I review include: Emergency Medicine, Failure to Diagnose, Pain and suffering, Trauma, Motor vehicle accident, Heart Attack, Myocardial Infarction, MI, Aortic Dissection, Pulmonary Embolism, PE, Aortic Aneurysm, Appendicitis, Ischemic Bowel, Stroke, TIA, Subarachnoid Hemorrhage, Cauda Equina Syndrome, Sepsis, Pneumonia, Infections
